- Represents zero events.

Note I: Unmarried status in 1990-1996 was estimated using an inferred method. Starting in 1997, unmarried status is no longer estimated. See Chapter 6.

Note II: American Indian, Asian/Pacific Islander, Black, White/Other Races, and Unknown exclude Hispanic. American Indian includes Eskimo and Aleut. Hispanic includes any race category. Unknown includes Not Stated.

Note III: Beginning with the 2000 data, race reporting changed to allow the reporting of up to three races. The race/ethnic groups on this table generally correspond to the first listed race. The effect of this change in reporting race and in compiling race/ethnic groups may not be clear for a few years, so trends should be viewed with caution. See Vital Statistics of California, Chapter 6.

Note IV: Percents are calculated using total births, which include unknown and not reported data.
Percents are rounded independently and may not add to totals.
